The Original MUCK BOOT CO.

The Original Muck Boot Company™ story began in 1999 with the sole purpose of building the most comfortable, high performance footwear on the market. The need for a more comfortable boot for use in messy and tough conditions led to the design of The Original Muck Boot Company™ brand footwear.

Every boot in the line is expected to deliver the same 100% waterproof quality and comfort that inspired the original footwear. In just a few years, the line has grown to over 60 styles of rubber and leather footwear, all designed to tackle tough conditions in work, agriculture, lawn and garden, outdoor sporting, equine and pet care markets.

Today, the MUCK BOOT™ brand defines a standard of comfort and quality that goes beyond the expectations of customers around the country. Quickly establishing a strong and loyal customer base, the brand has become one of the fastest growing lines in the waterproof footwear market. All MUCK BOOTS™ are 100% waterproof.

Spandura® layered over Neoprene adds protection against wear

High grade rubber exterior provides a tough waterproof barrier

6mm EVA sockliner provides additional support and comfort

etc® sock lining reduces under foot friction and heat build up, allowing for a more comfortable overall feel.

HOW XpressCool™ WORKS

1. As the foot starts to sweat, the Muck XpressCool™ fabric rapidly pulls moisture away from your skin.
2. The Muck XpressCool™ lining absorbs and spreads the moisture out across the boot lining to drier areas of the boot to enhance the evaporative drying rate.
3. Most importantly as the moisture is spread and dries, it creates a cooling effect which keeps your feet **COOL** and dry in warm weather.

WOODY SPORT ALL-TERRAIN HUNTING BOOT

One of the most enduring boots in the Muck line, these boots offer 5mm neoprene with Airmesh lining and extra Achilles support for long days of standing. Ideal in most cold temperatures and conditions, the Speed Tracker sole delivers excellent traction on treestand grates, rocks and slick surfaces.

- Breathable Airmesh lining
- 5mm CR flex-foam
- Achilles reinforcement
- EVA contoured molded midsole
- Speed tracker molded outsole
- Comfort topline

Men's 7-14
Women's 8-13 (Unisex)
Boxed, 4 pairs per case

WOODY ELITE PREMIUM HUNTING BOOT

Using 5mm neoprene with a fleece lining and a 2mm foam underfoot, these boots carry a minus 40 degrees cold rating. The Woody Elite is ideal for big game hunters that are concerned with scent. The Elite has additional features including Inscentible® scent-masking and an antimicrobial treatment to prevent bacterial growth. This boot is ideal in colder temperatures, on the ground or in a treestand.

- Warm fleece lining
- 5mm CR flex-foam
- Inscentible® scent-masking
- agion® Antimicrobial treatment
- 2mm thermal foam under the footbed
- Cushioned EVA midsole
- Aggressive MS-1 outsole
- Comfort topline

Women's 6-13 (Unisex)
Boxed, 4 pairs per case

ARCTIC PRO EXTREME-CONDITIONS HUNTING BOOT

The Arctic Pro is one of the warmest neoprene boots on the planet. Perfect for the hunter or outdoor worker that gets cold easily or is in far northern climates. A popular boot worn in Alaska and Antarctica, these 8mm 4-way stretch neoprene, fleece lined boots set the standard in warmth and protective support at both ends of the poles. The 2mm foam under the footbed assures warmth in temperatures that can drop beyond minus 50 degrees or when standing on ice. Available in Camo and Bark, like most Muck boots a topline binding keep the snow and cold out, and warmth inside.

- Warm fleece lining
- 2mm thermal foam under the footbed
- 8mm CR flex-foam
- EVA contoured molded midsole
- Bob-Tracker molded outsole
- Comfort topline

ARCTIC SPORT HIGH PERFORMANCE SPORT BOOT

A lighter version compared to the Arctic Pro with a 5mm layer of neoprene, the Arctic Sport will still keep wearers warm to minus 40 degrees while standing deep in snow or slush. The boot's been in the line for nearly a decade and has proved its comfortable warmth throughout the northern reaches of the world.

- Warm fleece lining
- 2mm thermal foam under the footbed
- 5mm CR flex-foam
- EVA contoured molded midsole
- MS-1 molded outsole
- Comfort topline

CHORE COOL SERIES

These classic Muck work boots feature the new comfortable XpressCool™ moisture removal lining material to keep feet cool and dry in the summer. The etc® sockliner lining prevents heat build up while reducing friction. The Muck exclusive shallow Vibram® outsole keeps the wearer secure on ladders and surefooted on wet, concrete surfaces, all with a shallow lug that efficiently sheds mud and debris. It is wrapped in hand laid rubber and the upper uses Spandura® for resistance to briars and tears.

CHORE COOL

The same comfortable, high performance boot with our exclusive XpressCool™ lining and two height options.

- Rugged Spandura® upper
- XpressCool™ lining
- Steel shank
- 4mm CR flex-foam
- Triple toe and quadruple rubber heel reinforcement
